Art Unit: ~~2817~~ 2827**DETAILED ACTION****EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael E. Fogarty (36,139) on July 22, 2004.

The application has been amended as follows:

Cancel claims 13-30 without prejudice because these claims are withdrawn from further consideration of the restriction requirement elected by applicant.

***Allowable Subject Matter***

Claims 1, 4-12, and 31-35 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a module component comprising a substrate having a plurality of penetration holes, circuit wirings, a chip component, and some other claim elements. However, they do not disclose or render obvious in combination of the module component having the plurality of penetration holes disposed in the substrate so as to form a matrix of N aligned rows and M aligned columns, where N and M are equal or greater than 3, and the chip component having a height almost the same as a depth of each of the penetration holes (claim 1), the chip component

having a predetermined height being greater than the depth of one of the penetration holes and not projecting from first and second auxiliary substrates, the chip component is electrically coupling the circuit wirings to each other, and the penetration holes are formed at positions according to a matrix (claim 8), a capacitor placed in another one of the penetration holes immediately beneath an IC chip to be coupled directly with the IC chip (claim 10), a ground layer disposed beneath the substrate (claims 12, 32-34), and the penetration holes are tapered (claim 31).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
